Develop a data base for habitat projects. Specific information for better record keeping and follow ups.

AWA Co-Ordinator – oversee projects, set guide lines, find volunteers.  
(we are planning on moving forward with the Jackson Marsh project)

Wild Rice Co-Ordinator – Sit on the states wild rice committee, oversee projects, involve local chapters, community and schools.

Nesting Structure Co-Ordinator- (Bart Tegan) Connect with Erich Pitz, establish a data base on where the structures are and the brooding results.

Clear understanding of funding/grants coming in and the expenses associated with projects

Abrahms – Find a property manager, establish short term and long term goals for the property.

Signage on project properties  
Engage local chapters and legislator when in area doing projects  
More social media on projects and our committee needs
