Just FYI. This is some of the education stuff that has been happening out in PDC really with very little awareness.... but we should be touting (and supporting it). WRT to supporting, they (PDC) have been getting a \$500 grant through us from 3M to support this activity.

Bruce,

See attached for some past articles (submitted to our local newspaper) for info on our annual youth hunt co-sponsored by WWA. In the past, I have sent them to Kelcy for addition in the WWA newsletter, but I think I forgot to include her for a couple of years.

We try to find young hunters that are interested in Waterfowl Hunting but do not have waterfowl hunters in their family to take them.

This year will be our 10th year. I also included an itinerary from last year to illustrate what we do for each group.

Mike,

Thanks for the call. Look forward to the material that Matt will be sending, and I even more look forward to how we can collaborate together on education, habitat and advocacy issues that should be the foundation of WWA is doing in the PDC community (i.e., beyond fundraising!)

Bruce

Hi Mark,

Would love to discuss this effort with you. Since I've been in this role for 2-1/2 years, I've heard about your work and would like to better understand it and how we might be able to leverage it for the good of the states waterfowlers. Is there a good time to speak this week? Thanks for your consideration.

Bruce

Kelcy, any way you can transfer this Volunteer Match to our WWA checking account so we can use the funds for our WWA Youth Hunt this year?

Thanks!

Mike
